

Scale of Assessment of Members' Contributions

EC-79/INF 8.2

45th session of the Financial Advisory Committee
(FINAC-45)

12-13 June 2025

WORLD
METEOROLOGICAL
ORGANIZATION

Basis for WMO Scale of Assessment

- WMO Scale of Assessment always based upon UN Scale
 - UN publishes new scale every 3 years
 - In accordance with resolution of Cg-19, WMO 2026-2027 scale based upon UN Scale available in December 2024
- Proposed 2026-2027 scale based upon application of UN Scale:
 - Relevant UN Scale approved by UN General Assembly in December 2024
 - Member scales were adjusted accordingly
 - No individual Member increase exceeded 200% of the WMO previous scale (2025)
- Scale applicable to each Member included in the Annex to EC-79/Doc 8.2

FINAC Recommendation

Recommendation 4:

“That the Executive Council adopts [draft Resolution 8.2/1 \(EC-79\)](#).”

Draft Resolution 8.2/1 (EC-79)

The Executive Council Decides:

- (1) To adjust the scales of assessment for the years 2026 and 2027 using the United Nations scales of assessment adopted by the United Nations General Assembly in the year 2024, adjusted for differences in membership provided that, for the WMO scale, the minimum rate shall remain at 0.02% and corrections shall be made to ensure that no Member's rate of assessment would increase to a level which would exceed 200% of the WMO scale in 2025, as specified in Table 1 of the annex to this resolution;
- (2) To make a provisional assessment in respect of non-Members in the event of any such non-Members becoming Members, the method of assessment being based on principles similar to those governing the assessments laid down in Resolution 50 (Cg-19), as shown in Table 2 of the annex to this resolution.
